

ROUTES TO BETTER PARTNERSHIP: A MAP OF CGIAR RESEARCH IN AFRICA

Regional Plan for Collective Action in Eastern and Southern Africa

The CGIAR research database for eastern and southern Africa is an online project repository of all the CGIAR projects in the region. It answers the question:

Who is doing what, where and with whom?

Find, Connect, Collaborate

User friendly geographical representation of research projects, map as the main entry portal

Google search engine; Cross linked to CGIAR medium term plans through CG Map

User driven: distributed responsibilities for data quality as data owners update their own information

Provides key project details including research partners – social networking for new project development, identification of economies of scale and scope radically improved

Over 500 research projects reported!
